THE question put at the last meeting of the Legislative Council by the Hon. A. P. MAC-EWEN respecting the proposed Lighthouse on Gap Rock was a timely one, and we are The MAPS and PLANS have been mostly now, as a consequence, in possession of the Mr. Farrago, Commissioner of Customs, of correspondence on the subject, which, it must be confessed, is not satisfactory in its conclasion. The despatch of the Secretary of State for the Colonies, dated the 12th ult. acknowledging receipt of Mr. MARSH's despatch and enclosures, is eminently disappointing. Either Sir HENRY HOLLAND has Christians and missions is now, by all official given a very cursory examination of the Acting Governor's despatch and none to the letter of the Chamber of Commerce—the con- was ordered by the French Government to insequence being that he utterly failed to grasp the idea that shipowners are willing to find : large proportion of the cost of the proposed A full Chronology of remarkable events since Lighthouse or else he is unwilling that the surplus revenue derived from the Light dues any other power, not claiming a protectorate, as should be applied to its legitimate purpose. The right hou, gentleman entirely misapprehends the question. There has apparently been no formal offer by Sir Robert HART on behalf of the Chinese Government to erect-the-lighthouse, but the Inspectorcost of the work and indicated the conditions on which the Imperial Maritime Customs would bear the cost of maintenance of the lighthouse when made. Sir ROBERT HART, it seems, estimated the cost of erection at some \$90,000, and proposed, if the Colony would bear that cost, that the Chinese Go vernment should undertake the up-keep, as the structure would be on Chinese soil. This we presume, was a semi-official proposition which the local Government could not entertain without reference to Downing Street. It seems to us that Mr. Marsh has un. to lap their food from a dish, the foudness of the intentionally misled the Secretary of State for the Colonies by the very first paragraph that "a woman may occasionally be found who of his despatch. With reference to the necessities for the equipment of the estate as set out in paragraph IV. of the 21st September circular, it seems possible that the expense of a "Still," which as the shareholders know is desired to work off the molasses, may be saved; negotistions are in progress which it is hoped may result to the all important object of extending the cultivation up to the capacity of the mill. The other necessitios are being provided for.
